One Time - Package 6 – 3200 guaranteed One Way Theme Links

-built in 12 weeks + On site SEO report and Keyword Analysis for a total of 2500\$ as written bellow:

1. 3000 links submissions = 1600 Guaranteed One Way Theme Links

- The links are built by manually publishing **40 Original Articles** on **200 different article sites** (each published article will have 2 back-links to your site). We can use up to 70 keywords and 70 different URLs of your site to build the links. 70% of our Article Sites have **PR 2 to 6**, all with different C classes IPs.

2. 300 links submissions = 150 Guaranteed One Way Theme Links

- The links are built by manually publishing **10 Reviews** for your site from **5 different accounts** on **150 Social Bookmarking sites**, **90%** of the sites have **PR 2 to 8**, all with different C classes IPs..

3. 2000 links submissions = 1150 Guaranteed One Way Theme Links

- The links are built by manually publishing **the 35 articles from point 1** on **50 Press Release sites**. All our Press Release Sites have **PR 2 to 7**, all with different C classes IPs.

4. 300 Guaranteed One Way Blog Links

- These links are built by publishing **9 articles** (300 words each) with 2 back links to your site on **20 different free blog sites**. These free blog sites are our sites (new sites with PR 0) which we are promoting to get the highest PR for them and your blog back links too.

- **All the submissions** are **100% handmade**, NO automated software is involved. You can check this by looking at our over 1000 GOOD SEO REVIEWS made during the past 5 years on 4 freelancing sites.

- The links will not appear all at once to your site. The indexing process of all the links will take between 1-3 months. The links will appear gradually to your site and everything will look naturally for all the

search engines

Choosing this package will bring you the following (For Free):

5. An On-site SEO report of your home page which will contain:

- Meta-Tag Keyword Analysis – indicating the problems and solutions.

The reasons why we are the best in building one way theme links which improve rankings are:

- 1. Over 90% of our Social Bookmarking Sites have PR from 2 to 8**
- 2. Over 80% of our Press Release and Article Sites have PR from 1 to 7**
- 3. All the one way theme links (inbound links) that we make are PERMANENT LINKS**
- 4. We can also link back to the inner pages of your website, and not only to the main page. Not many providers can offer this. LINKING TO INNER PAGES is much appreciated by all search engines.**
- 5. We use TOP SITES, the best on the market, to publish our optimized articles, press releases and social bookmarking reviews (over 100 of them have PR 2 to 6)**
- 6. All the articles, press releases and social bookmarking reviews are SUBMITTED BY HAND. NO AUTOMATED SOFTWARE IS INVOLVED, so the search engines see these one way links appearing normally.**

7. The traffic will come from search engines, not directly from the articles, because your site will rise in ranking in search engines on the keywords on which the articles are optimized.

8. We write ORIGINAL Articles, Press Releases and Social Bookmarking Reviews, 100% COPY SCAPE tested which you can verify yourself before starting the publishing process. The writers visit your site and make a research on the topic on which the articles will be written. Each article and press release contains 2 anchor links to your site and is optimized on 2 main keywords + secondary ones.

9. The links come only from static pages, NO DYNAMIC ULRs, NO FFA, NO Link Farm..., only 100% WHITE HAT SEO

10. FROM OUR VAST EXPERIENCE (over 1000 SEO projects), we've learned that each article must be published on a maximum of 50 different C Classes IP sites (in order to avoid making SPAM and get your site penalized). Also, we know exactly how to write the articles and publish them so we can IMPROVE YOUR RANKINGS

11. Your links will NOT APPEAR ALL AT ONCE. The reason is that the links are placed on theme pages (the articles' pages) and the indexing process of all the articles (all the links) can take up to a couple of weeks (depends on the offer you choose for your site — can take 1-2 months for the biggest offers).

12. At first the articles don't have PR because they are new pages created just for one specific link and article. After Google indexes the articles, they receive a PR and then your links become more valuable. One way theme links which come from articles with PR are very powerful tools regarding ranking improvement.

13. With this method you will RECEIVE ONLY REAL THEME TRAFFIC.

14. We will use our authors' names for publishing the articles. They've written and published thousands of good articles. Therefore the search engines will index the articles more quickly and efficiently

If you have any kind of doubts about the quality of our work please check our reviews and our [Previous Work section](#):
